Mobile Banking - Special Edition Newsletter

Next Generation Mobile Banking is Here!

We already deliver the best mobile banking service, FOR FREE! Now we have expanded our mobile to a whole new level. Your internet enabled phone is the best place to find mortgage rates, product information, as well as our locations with maps. The kind of things you need when you are out and about.

We even deliver short informational videos to provide basic bank and product information right on

your phone. Try it.

How to get there

- Just go to nsbonline.com and our "sniffer" will determine the type of device.
 - If you are on a mobile phone, you'll immediately go to our new mobile site. If you are on a very small screen (say 150 pixels wide) you'll get a special text only experience.
 - If you are on a full screen device such as a computer or tablet, you'll by pass our mobile experience and arrive at our full screen website.
- The sniffer is almost perfect but might not identify every device. If you go to NSBMobile.com you'll by-pass the sniffer and go right to the mobile experience.

The new experience is all before you login

This is the first of two phases where we have enhanced the information and added videos to our Mobile Banking. We have not changed the actual online banking. Your Online Banking screens have not changed. If you haven't tried our Mobile Online Banking, please try it today. If you already have an id and password for our online banking on your computer, you can use the same id and password on your mobile phone.

Next Phase - Mobile Online Banking

We know that after you log on to Online Banking with an iPhone or Droid the experience could be significantly improved with a dedicated app. We expect to deliver both apps in the early Fall.

More on this Phase

It sounds pretty basic but we'll display a big green open sign next to our call center phone number when the call center is open. On most phones, just click the number next to the open sign to call us.

The Mobile Menu - There are five big buttons:

- 1) Mobile Online Banking to access your existing accounts.
- 2) Easier Mortgage and rates.
- 3) High rate internet savings information.
- 4) Hours, locations, and maps.
- 5) Product and Information Videos on your phone.

If you are looking for mortgage rates, nothing is faster or easier. The rates are right there. No need to call us or provide information first. Just click on a rate and we'll even provide sample payments and other information.

Our video library provides providing information without the clicking and scrolling associated with long web pages on a cell phone.
