Traveling this Summer?

Taking a vacation can be an exciting time, but it can also come with some risk—especially when it comes to your devices and personal data. A few simple precautions can go a long way in protecting your information while you are away. Below are some key steps to keep your information safe.

- **Secure Your Devices** - Use strong passwords, update software, and enable tracking features like “Find My Device”.
- **Be Cautious of Public Wi-Fi** - Avoid sensitive transactions on open networks and use a VPN for secure browsing.
- **Set Location & Card Controls** - It's important to let your bank know when you are traveling. Set spending limits, turn your card on/off, add travel plans, get real-time alerts, and track your purchases - all from our App or Online Banking.
- **Monitor Accounts Post-Trip** - Check financial and online activity for any signs of fraud or unauthorized access.
